DRAWING---ARCHITECTURAL and MECHANICAL.—As this is the season for young mechanics and others to apply themselves to the attainment of the greatest aid to the eminence in their various pursuits, viz:---a thorough knowledge of Geometrical Drawing.

We would call their attention to "Manifie's Text Book of Self-instruction," being a complete manual of Mechanical Drawing, including Geometrical Drawing and Perspective, illustrated with 56 steel plates, and explained in a familiar manner, rendering the attainment of the art easy and agreeable.

From the New York Scientific American.

"It is the best work on Drawing that we have ever seen; no young Mechanic such as a Machinist, Engineer, Cabinet Maker, Millwright or Carpenter, should be without it."

From the Baltimore Western Continent.

"He, who having thoroughly mastered this book, cannot make any of the ordinary drawings of this kind, may well despair of ever being able to accomplish such a result.

From the National Intelligencer.

"Indeed, one who patiently and carefully goes through it could not be said, so far as principles and methods are concerned, any longer to want a master."

From the American Railroad Journal.

"It is commended to those best qualified to judge of its merits, as being the most thorough and complete work of the kind ever published in this country."

"It has received universal commendation from the press, and we believe that it merits all that has been said in its praise. Price $2,00.

PARTICULAR NOTICE.

We will forward a copy of the above work free of expense, to any part of the Union, on the receipt of three dollars, which may be sent per mail at our expense.

W. M. & Co. have also published an abridged edition of the above work for the use of Schools, containing all the principles that are contained in the large work, illustrated with 18 steel plates.---Price $1,25. Published and for sale by WM. MINIFIE & CO. 114 Baltimore st., Baltimore.

GREAT AMERICAN REMEDY.

VEGITABLE DYSPEPSIA BITTERS, a sure, speedy and permanent cure for Dyspepsia in its worst forms. This medicine will be found to cure all complaints arising from disorders of the stomach and bowels, biliousness, yellowness of the skin, Liver complaints, Debility, Headache, Nervousness, Low Spirits, Palpitation of the Heart, Costiveness, &c. &c. Please read the following certificate:

Read the following from an eminent physician:

The undersigned being acquainted with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia.

T. HARDENBERGH, M. D., No. 1 Beach street, N. Y.

From Luther A. Wyman, Esq., late President of New York Musical Society, now of Brooklyn:

The undersigned was afflicted with Dyspepsia of the worst form for one year and a half, during a greater portion of which time he made use of no remedies, but suffered the disease to take care of itself, until he was recommended to try Hutchings' Dyspepsia Bitters; he very soon derived benefit from the use of a few bottles of this medicine and now considers himself entirely well.

The undersigned has every confidence in the efficiency of Hutchings' Bitters for the cure of this troublesome and dangerous complaint, and he has no hesitation in recommending it as a most valuable medicine.

L. B. WYMAN, N. York, Sept. 3, 1849. 38 Dorling Slip.

The following certificate is from Mr. Brady, the celebrated Daguerreotypist:

Having been afflicted very severely with Dyspepsia, together with extreme weakness he was advised to take Hutchings' Dyspepsia Bitters, and have every reason to believe it has perfectly cured me. I have felt no symptoms of a return of the disease and believe from the effect it had on me that it will cure the worst cases of Dyspepsia.

M. B. BRADY, No. 205 Broadway, N. Y.

The Proprietor of this medicine has received many other certificates of cures, equally remarkable, of the various diseases for which this preparation is applicable; but the above are deemed necessary to satisfy any unprejudiced mind of its value and superiority above all other preparations.

Principal office, 122 Fulton-st., N. Y., up stairs.

Price, 50 cents per bottle, or 6 bottles for $2,50.

TO OLD COUNTRYMEN.

HARNDEN & CO'S Passage arrangements for 1849.—Reduced Rates of Passage from Liverpool to Boston, by their Regular Line of Packets sailing from Liverpool on the 1st, 7th, 13th 20th, and 25th of each month. Also, from Liverpool to New York, by the regular line of Packet Ships sailing from Liverpool on the 1st 6th 11th, 16th, 21st and 26th of each month. The splendid Ships composing this Line have been built expressly for this trade are commanded by men of long experience, their accommodations are commodious, and they are in all respects desirable conveyances for Passengers. Persons wishing to send for their friends in Ireland, England Scotland, Wales, can do so through the subscribers. Particular attention will be paid to the accommodation and good treatment of passengers.

The advantages offered by this Line over all others are the following, viz: That the ships selected by Harnden & Co. for the conveyance of their passengers, cannot be surpassed by any out of the United States; on this point no better evidence can be offered than the fact, of the hundreds of ships despatched by them, not one has ever been lost! Passengers will be brought by this Line at very low rates Parties holding Harnden & Co's Passage Certificates will not be confined to one ship a month in Liverpool but have the privilege of embarking in any of the vessels sailing every week.

☞Harnden & Co. have Agents in all the principal seaport towns of Ireland, who take charge of their passengers, and protect them from the frauds practised upon the inexperienced

Harnden & Co., wishing to conduct their business upon principles of fairness and equity, to prevent fraud and deception, have but one price for passage, which in all cases includes Hospital fees and provisions, according to law. Prepaid passengers always have the preference over passengers saying in Liverpool. ☞Those applying by letter or otherwise for Certificates of Passage, should in all cases furnish the names and ages of the persons sent for, with their address in full, containing the name of the town and, nearest post town, and county, together with the address of the person to whom care a letter is usually sent, to enable Messrs. Harnden & Co., of Liverpool, to notify them of the proper time to leave home, and furnish other necessary information. ☞Those enquiring for prepaid passengers should give the number and date of their passage receipt.

☞No other Passenger House, either in this City or Liverpool, is authorized to advertise, or sell Certificates for this Line.

REMITTANCES.—For the convenience of persons wishing to remit money to their friends, we keep constantly for sale, Drafts at Sight, which are cashed at any Bank in England, Ireland, or Scotland Duplicate checks are always furnished, to secure the purchaser against loss;

For further information, apply (if by letter, post paid,) to HARNDEN & CO No. 41 Broad st., or No. 8 Chart st., Newport Office in Liverpool at No. 60 Waterloo Road. july 30.

DR. CORBET'S HIGHLY CONCENTRATED SYRUP OF SARSAPARILLA.

IT is a indeniable fact that no medicine ever brought before the public, has proved so beneficial in cases of diseased Blood, Liver Obstruction, Scrofulous Taint, Consumptive Habit, and all cutaneous affections, as that of Dr. Corbet's!—The distinguished Prof. Hayes says:---"It ought to have a preference, as its formula exhibits the union of some of the best of our native medicinal roots and plants with substances of the highest repute as remedial agents, and does not include any *Metallic Compound.*

But read what Druggists say, whose well known characters give full security to its virtues.

☞The Compound Concentrated Syrup of Sarsaparilla, made by the United Society of Canterbury, is prepared with great care, and the increasing demand for it is positive proof of its good effects. It is now prescribed by most of the Physicians in Boston and elsewhere, which is the best evidence that they give it a preference over any other preparation of Sarsaparilla offered to the public.

☞Since its introduction, its reputation has been constantly increasing, and its popularity extending in every direction, being recommended by most distinguished physicians.

In Illinois lately, a young Indian fair, or brown, one of some distinction in the woods, made her complaint to an old chief, of the faithlessness of her bethrothed. The squaw asserted that she had no sooner made up her mind to the marriage, than the young chief chose to turn on his heel and marry somebody else. The case was brought before the heads of the tribe. The matter was regarded as touching the public honor, and the old warriors held a grand council on the subject.

As among the Indians there are as yet no professed lawyers, justice was not so tardy as in more accomplished countries and the case was pleaded by the squaw herself. It consisted of statements of frequent visits of the young chief to the wigwam; of smoking a considerable quantity of her father's tobacco, and eating their venison when he could get it; those attentions to herself being connected with frequent attentions to the larder, the statement being corroborated by several bunches of feathers, yards of Welch flannel, the fox tails and a scalp.

The lover was then called on. He denied the charge of affection altogether. With an air that could not be excreded by a man of fashion, he said, that though he had visited the fathers wigwam, he had done it only when he had nothing else to do, when the beavers were not to be found, or the buffalos were gone. As to the "feathers and flannel" he acknowledged that he had given them, but had given them merely as matters of common civility. As he concluded his speech, the squaw gave a loud scream and fainted in the arms of her mother.—The old chiefs proceeded to judgment, and whether guided by the justice of the case, or touched by the sufferings of the squaw, brought in a verdict of damages, sentencing the offender to give the broken-hearted fair one, a yellow feather, a broach, and a dozen beaver skins. The sentence was no sooner pronounced than the squaw recovered from her swoon, spring on her feet clapped her hands with joy and cried out, "Now I am ready to court again."

☞ The following letter we copy from the Fall River News.—

NEWPORT, R. I., March 6, 1850.

MESSRS. ALMY & MILNE:—*Gentlemen*: Having a few leisure moments, I thought I would write you a few lines to let you know that I am still on hand.

As spring is opening upon us, visitors from abroad are already making preparations to spend the summer in old, time-honored Newport. A large number of cottages have already been engaged for the coming season—and quite a demand for summer quarters is the order of the day.—Several eminent persons have already expressed their determination to make Newport their permanent summer residence, and are selecting lots for the purpose of building snug little homes for the fashionable season—and to be safe from the cholera, and other pestilential diseases that afflict the large and crowded cities. The hotels, too, are fitting up, and getting ready to open early, with good prospects for a profitable season. The Belevue House, well known as the very best in Newport, and to which all the first men in the country (who visit Newport) resort, is having one of the most splendid halls in the State added to it, the dimensions of which, I am informed, are 85 feet long, 45 feet wide, 23 feet high, with large airy windows, and is to be finished in the very best manner. There will be 25 or 30 new lodging rooms—ladies' parlor, reading room, store rooms, &c., &c., which, together with its former accommodations, will make it the most desirable hotel in Newport. Mr. Wm. W. Hazard, its former able proprietor, will still continue to provide and entertain his numerous guests with the best the market affords, and he will spare no pains to make everything pleasant and agreeable. Mr. C. N. Tilley, the clerk, well known to all who visit Newport, will be at his post as usual always ready to do all he can for the comfort and convenience of those who visit the Bellevue. The Atlantic and Ocean Houses are cleaning up and painting, and getting all things in readiness for the approaching season—and from present appearances, I trust they may all do a flourishing business. Several new schooners are already fitting out in the fishing business. Our factories are doing well, and I think Newport will soon show that she is waking up from her long slumbers. I hope those who have the means will soon see the necessity of a Railroad to Fall River, and should that be done, what can hinder us from going ahead! May the time soon come when Newport shall flourish as of old. But enough for the present. Yours respectfully, N.

TRANSMIGRATION.—Mr. Spurzheim says flies are supposed to be the souls of backbiters and slanderers.

THE TREE VIEW OF WOMANHOOD.—It was the remark of an able writer that, "whatever may be the customs and laws of a country, women always gives the tone to its morals." Every intelligent mind must be forcibly struck with the truth of this assertion. In all countries and in all ages the national morals have been graduated by the greater or less purity of its women. Ancient Greece, with all its skill in art, was a desolate country; and in ancient Greece female virtue and female influence were at the lowest ebb. Germany, England, and the United States are the three countries, which, of all the modern world, exhibit the most morality; and in Germany, England and the United States the female character is more pure than in other nations. The peculiar influence of the sect is such, that nothing which they dislike can really live. Let woman once set the seal of her disapprobation on any habit of man, we care not what it is, and the habit disappears. The most vicious, as well as the best of our sect, feel and obey this law of nature. Few men have any standard of their own by which to regulate their conduct towards women; but take the standard she assumes for herself, and treat her respectfully, or otherwise—her conduct warrants.

All this is so evidently true that we need not enlarge upon it. But does not this fact in nature decide, to a great extent at least, the controversy respecting what are called the rights of women? The laws of a nation are but the exponents of its morals, and if women give tone to the morals, are the statute-book itself is derived? There can be no question as to the truth of this fact. How idle, therefore,—how worse than idle, how foolish,—is any controversy between the sexes, as to their mutual rights! Let woman be pure, if she would make man better; let her own sentiments be noble, and man will be noble too. As a wife she influences the husband; as a mother, she forms the character of the child; and in both positions she wields for good or ill, the destinies of the world.—That we have so many useless men, living without any high purpose in life, is owing to the fact that we have such numbers of frivolous wives and careless mothers. That man are often so vicious is most frequently the fault of women, who tolerate and even admire, in spite of, nay! because of their vices. There is no inferiority, as a whole in either sect. Each differs from its opposite, man from woman, as woman from man, but in this very difference consists, when they are united in marriage, the harmony of existence. As the deep bass of the one, joined to the bird-like treble of the other, constitutes the highest kind of music, so man and woman, by sweetest concert, move on in heavenly harmony, when both are true to themselves and to the real duties of life.

PROFITS OF BUSINESS.—It has been ascertained from carefully collected statistics, that of every hundred persons who commence business, ninety or more fail and finally die *poor*. Yet there is no doubt that, by the exercise of a wise prudence and judicious economy, each of them might have left from five to ten or more thousand dollars, by availing himself of the advantages of Life Insurance.

The Mutual Benefit Life Insurance Co., (now the first to declare a dividend,) offers every facility to business men for effecting this most desirable object. Milton Hall, Esq., is agent for this Company.

ARRIVAL AND DEPARTURE OF CALIFORNIA STEAMERS.—The steamship Empire City, from Chagres, with half a million of gold, arrived at New York on Saturday afternoon. She brings no additional news. The steamship Crescent City left New Orleans on the 7th for Chagres, crowded with passengers. It is understood that the next steamer from California would not leave until the 1st of March, and therefore a month will elapse before further news is received.

☞ Mr. Fitz Hampton, late extensive livery stable in the rear of Union street, New Bedford, was partially destroyed by fire Monday noon.

CONGRESS.

WASHINGTON, Monday—P. M.

In the Senate, to-day, Mr. Bradbury gave notice that he should press the passage of his resolutions on Friday.

The order of the day, the territorial question was next taken up, and Mr. Seward addressed the Senate. He said he should vote for to admit California, whether as a free or slave State, under existing circumstances. He agrees with Mr. Webster respecting fugitive slaves, but opposed the division of Texas into new slave States. He doubted the constitutionality of the resolutions annexing Texas.

Mr. Webster replied, and pronounced the resolutions constitutional. Some explanations followed.

Mr. Foote said he should present his resolution for the appointment of his committee to-morrow. After which the Senate adjourned.

The House went into Committee of the whole and took up the California message.

Mr. Stanton replied to aspersions which had been cast upon the white laborers of the South; he sprung from them himself; they were universely respected, and frequently rose to public distinction.

Mr. Fowler followed, and showed that the framers of the Constitution acted on the principle that slavery should not be extended, and that it must soon cease to exist, that this principle had been faithfully carried out by the North, and as extensively disregarded by the South; hence all their difficulties. He vindicated the Scriptures against sanctioning American slavery, and believed that, unless prohibited, it would be introduced into California. He would apply the ordinance of '87 to all new territories.

Mr. Gorman obtained the floor, when the Committee rose.

Mr. Brooks asked leave to introduce resolutions relating to the expediency of a general law regulating the transmission of intelligence by telegraph. Objections were raised.

EARTHQUAKE AT SAN FRANCISCO.—Several shocks of an earthquake were felt at San Francisco on the 16th of January.—The first two occured at about half past 11 o'clock, A. M., and were of several seconds' duration—succeeding each other at short intervals. The third took place at a quarter past 1, P. M., the vibrations of which were more violent than the previous ones, and of greater duration. The Alta California says:

"For a few seconds at intervals throughout the day, the earth trembled violently and we shall undoubtedly hear of an earthquake in some of the lower counties, probably South America, which has proved destructive to a considerable extent."

FROM OREGON.—The New York Commercial Advertiser has received files of the Oregon Spectator to the 20th of November last. That paper complains that the interests of Oregon are neglected by the U. States Government. The editor says that post routes might be established through the circuit of the Willamette Valley, for $3000, which would accommodate seven or eight thousand people. He complains, also, that the vacant judgeship has not been filled, and that Oregon has no prosecuting attorney; that no money has been remitted to defray the expenses of the territory, and that serious evils arise from the want of a revenue cutter and a steamer for the harbor. Every house in Oregon city that could shelter a human being, was occupied. In September and October a million and a half of lumber was shipped, the value of which was $485,000.

CANTON SHAWLS AND SILKS!—Jewett & Prescott, No. 2 Milk street, Boston, are among the heaviest dealers in these Goods, and claim to have an assortment of Crape Shawls, in particular, that will astonish the patrons. These Goods however, are but an item among the many attractions offered by this Firm, all of which we hope will be justly appreciated.

A UNION CONVENTION.—As the Disunionists talk of holding a convention at Nashville in June next, it has been suggested that the friends of the Union in the South, meet in Convention at the same place on the 4th of July next. We are for this most heartily, and every other scheme for rebuking the mad spirit of treason to the Constitution, which is seeking to alienate the affections of the people from that bond of States that every American citizen should estimate as being above all price. Our motto is; Down with the Factionists—Everything for the Union.

Knoxville Tenn. Register.

A CRY FROM CANADA.—The Quebec Morning Chronicle thus calls upon Hercules for help to get the provincial cartwheel out of the mire. "Notwithstanding the country possesses natural riches in abundance, yet capital enough to build ten miles of railroad cannot be raised. We recommend the pitiable condition of our own sister province to the consideration of the charitable in Great Britain. Poor province! poor province! help, John Bull, this poor province!"

An Ohio "fat girl" is exhibiting at the West. She is but fifteen years old, and weighs 150 pounds. She is represented to increase in weight at the rate of one pound a week. Slow, but sure.

ARRIVAL OF THE EMPIRE CITY.

The steamer Empire City, Captain Wilson, arrived at New York, on Saturday afternoon, from Chagres, via Jamaica.—Left the former port on the 26th of February, and Kingston on the 2d of March.—She brings one hundred passengers, and $510,572 in specie.

FROM THE WEST INDIES.

The American schooner El Dorado was sold at Montego Bay on the 16th of February, for $1,125. Eleven bales of Cuba tobacco, damaged part of her cargo, were sold at the same time at $23 to $35 each.

There has been considerable rain on the island during the mid le and latter part of February, which had revived the hopes of the planters as to the yield of the sugar crop.

Complaint is made in the Jamaica and Demerara papers of the arrangements of the British mail steamers for conveyance of the West India mails to England. The Jamaica Journal notices the fact that letters sent from Kingston by the American steamer Empire City, via New York, eleven days after the departure of the Avon for Southampton, reached England one day in advance of those by the latter vessel.

The Legislature of Jamaica was prorogued by the Governor on the 1st of February.

The U. S. ship Raritan, Com Page, arrived at Barbadoes on the 20th of January, and sailed for Martinique on the 12th of February.

The Falmouth Post notices the reception of two samples of cotton grown on a plantation near that place.

FROM CENTRAL AMERICA.

On Saturday evening the Empire City brought advices from Nicaragua and San Salvador, down to the 11th of February.

Romercy, the supreme director of the state of Nicaragua, had issued a proclamation restricting the introduction of foreign spirituous liquors to the two ports of San Juan del Norte and Realijo.

By the same authority a militia force was ordered to be raised for its protection.

A slight disturbance of San Salvador had been promptly repressed by the authorities.

FROM BERMUDA.

Files of the Hamilton Gazette have been received to the 26th of February. The British steam ship Avon arrived at Hamilton on the 21st, and started for Nassau and the Gulf of Mexico on the 25th, she had on board sixty passengers and one hundred tons of quick silver.

GREAT FIRE AT BUFFALO.

Buffalo, March 11.—About 2 o'clock yesterday morning, a very destructive fire occurred here, commencing in the building known as Stewart's Globe Saloon. The flames rapidly communicated to the American Hotel, Bloomer's Hall, Lafayette House, Clinton, Meyers's Osborn, and from fifteen to twenty other buildings, all of which were consumed. The estimate of the loss varies from 100,000 to $112,000; about 26,000 of which is covered by insurance.

SCHENECTADY, March 11.—*Locomotive Exploded—Loss of Life.*—The noon freight train from Troy, coming West, when within six miles of this place, the boiler of the locomotive Boston, exploded, instantly killing the engineer and seriously injuring the fireman. The boiler was a new one.

BRIDGING LAKE CHAMPLAIN.—A resolution was adopted in the New York Senate on Tuesday, authorising the railway committee, during the recess of the Legislature, to visit House Point and such other places in its vicinity as they may deem necessary, and examine into the feasibility of constructing a bridge across Lake Champlain at that point.

SAVE YOUR MONEY.

VERILY, THIS IS THE AGE OF HUMBUG!

TO CONSUMERS OF FLUIDS, PATENT OILS, CAMPHENE, &c.

HOW easy it is, and still more silly, for a person to sit down and write an advertisement puffing every or any article that they may happen to have to sell, and running down that of their neighbors, which they know to be quite as good as their own; and, in many cases, better. But such is characteristic of the age we live in. But the public has been so gassed up of late, with these flaming, bombastic advertisements, that they now know just what weight to attach to them. We believe that advertising, when not abused, to be a benefit to all; but, like many other things, it must be overdone with

Gas! Gas!! Gas!!!

We would say to all, use your own judgment—it is the only alternative.

I have the following articles, which is the best, cheapest and cleanest, of any Oils or Fluids now used, for producing a brilliant light:—

Burning Fluid,	70 cts.	per gall.
Fine Oil,	60 "	"
Camphene,	70 "	"
Phosgene,	70 "	"
Patent Fluid,	60 "	"
William's Fine Oil,	60 "	"
Double Fine Oil,	60 "	"

And all the other Oils. We are daily receiving fresh supplies of the above kinds of Oils and Fluids, from the largest Manufacturers in the country, and we defy all competition in prices or quality. We expect that others have as good an article as ours, but we know that none have a better or a cheaper. Never, in one instance, has there been a complaint brought against it, and not one family that has given it a trial, but what continues to use it in preference to all others.

Also, Lamps of every description, for burning the above, for which, I am Agent for the Manufacturers, and will sell at their prices. Wickings, Tubes, Cans, &c., &c., and every article ever called for, kept in a Lamp store; and we advise all that desire a brilliant and economical Light, to give us a call, and they will find us ever ready to fulfil our promises to the letter.

STAMMERING OR STUTTERING

CAN BE CURED.

MESSRS. HARMON & WILLSON, respectfully offer their services to those afflicted with impediments in speech, with the fullest confidence, acquired from extensive experience, that they can effect a radical cure by the application of principles derived from a scientific analysis of the Human Voice. Our system is unlike any ever presented to the public. Individuals who have submitted to surgical operations, and have unskilled schools established for this purpose both in this country and Europe, we have cured in a short time, and they have unanimously expressed the opinion that relief can be obtained in no other way than that pursued by us.

So confident are we of the success of our system, that we demand no remuneration until the utmost satisfaction is given.

FACTS TO BE REMEMBERED.

CONSUMERS of PATENT OIL, FINE OIL, BURNING FLUID and CAMPHENE, will find it to their interest to call on the undersigned before purchasing elsewhere, for three simple reasons—

1st. Because we always have on hand and are daily selling, large quantities of the only PATENT OIL for table Lamps, that is sold in Newport—for the sale of which, we are the only Agent, and which is, beyond all doubt, the best article for Family use ever introduced, for a brilliant and Cheap Light. It burns free and brilliant—free from grease, smoke or smell, and will not congeal or explode, and is sold at 70 cts. per gallon.

2d. THE FINE OIL and BURNING FLUID furnished me by the largest and most extensive Manufacturers in New York and Boston, enable me to warrant it as being pure and genuine. Every one speaks of it in the most flattering manner, as being a cheap and clean light, and is sold at 60 cts. per gallon; and the Fine Oil, for burning in Williams's Parlor Lamps, for 60 cts. per gallon.

3d. Though last not least of all, comes HIDER'S DOUBLE REFINED CAMPHENE, which is acknowledged by all, to be the best and cheapest article for light. It has stood the test of this community for the last six years, notwithstanding the many attempts to crush it, by introducing an inferior article from New York and Boston. The superior advantage ours has over *foreign Camphene* is, that we distill it fresh twice a week, and consequently it will not smoke or crust the wick, like an article bought from abroad. Thus, we furnish the public with an article from which they can obtain any quantity of Light, (equal to City Gas,) at one-third of the expense, at the same time safe, clean, and free from smoke or smell.—All the above are FACTS, for which we hold ourselves responsible to the letter, or we forfeit our trade, our reputation, and our sacred HONOR.

Also, Lamps of every description for burning the above, for which we are Agent for the Manufacturers, and will sell at their prices. Wickings, Tubes, Cans, &c., &c.; and, in fact, we keep POSTED, close up, in every particular respecting the Cheap Light system. Therefore, we say to every one that desires a brilliant and economical Light, to call on the subscriber before purchasing elsewhere.

Or, External Remedy.

RHEUMATISM CAN BE CURED!

THIS invaluable remedy, which has entirely cured hundreds in this vicinity of the most excruciating of all complaints, Rheumatism, is now offered to the public with an entire confidence that it will do all that is promised for it. As a safe, certain and speedy medicine for Rheumatism, Lameness, Tic Doloreaux, Headache, &c., it never has been and it never can be surpassed. Let those who doubt this, call upon the proprietor, who will satisfy them at once of the perfect truth of these statements. The External Remedy is itself a new medicine, and never was used in this country until introduced by the proprietor. As an alleviator of that class of diseases which it professes to treat, it is destined to win immense public favor. To suffer with Rheumatism when relief is at hand, is the height of folly.

IMPORTANT TO CONSUMERS OF PINE OIL, PATENT FLUID, AND PHOSGENE.

HAVING first introduced the above in this community, we are enabled, by early management, with the Patentees and Manufacturers, to supply such only as can be warranted genuine and of the first quality. We have on hand and for sale in any quantity, the following articles for producing the *best light*:—

1st. The genuine PINE OIL, for tube Lamps, for the sale of which, we are Sole Agents for this place; the best Oil in use, being clean and pure, and more durable than any of the Oils or Fluids. Mr. Geo. B. Knowles is authorized to sell the above.

2d. THE DOUBLE PINE OIL—a colourless liquid of great strength—an excellent substitute for Camphene, giving more light, and is also *cleaner and cheaper*.

3d. PORTER'S FLUID—the genuine kind—furnished to us by Mr. P. himself, the original Patentee; perfectly pure, colorless and safe.

4th. PHOSGENE GAS, producing an even and unvarying light of great beauty, resembling the gas of the cities.

All of the above, we warrant fully, and are ready to refund the money if they do not prove as warranted.

A great variety of Lamps on hand, for sale *cheap*. Solar, Argand, Astral and common tube Oil Lamps, adapted to burn the above; prices ranging from 12 1-2 cts., up along.

PROFESSOR BARRY'S TRICOPHEROUS or Compound. When Theory and experiment authenticate each other, there can be no mistake. This is the case exemplified in BARRY'S Tricopherous. The theory of the remedy is this: That it is imbibed by the skin elevate and injected through the capillary vessels, promoting the growth, beauty and health of the Hair when applied to the scalp, and dissipating inflammation of every kind, (whether caused by disease or accident,) when applied to the parched, blanched, tender, lacerated, cut, bruised, scalded or in any way irritated skin. It is also assured that it acts upon the pores, those ventilators and escape pipes of this system, and assists to dispel the matters and other elements of disease through these important channels. So much for Theory. Experiment proves that the article is an invaluable remedy for all external hurts and diseases, and that as a preparation for renewing the vegetative power of the hair, giving it a rich mellow lustre, rendering it flexible and curly, and removing scurf and dandruff it has no equal either in Europe or America, while in cheapness it certainly stands alone. Sold in large bottles, Price 25 Cents, at the principal office, 137 Broadway, New York.—Also by the principal merchants and druggists in the United States and Canada.

DR. S. P. TOWNSEND'S
COMPOUND EXTRACT OF
SARSAPARILLA.
ORIGINAL AND GENUINE.

SIXTY DRUGGISTS!

An advertisement appeared in several of the papers, headed "sixty Druggists." This advertisement is signed by a number of men who keep small retail drug stores in the back streets of the city, and are no Druggists or Physicians. The advertisement was put in by a lot of unprincipled men under the name of Thompson, Skillman & Co. who hired an old man by the name of Jacob Townsend, last fall, to put up a stuff which they endeavor to palm off on the public as the genuine and original Dr. Townsend's Sarsaparilla. Skillman & Co. have proved that it was their intention to take advantage of Dr. S. P. Townsend's extensive advertising, which has cost him over $100,000, and the popularity of the name of his medicine, to sell theirs. The advertisement signed by these shopkeepers, and put in the papers by Thompson Skillman & Co. would lead people to believe that our Sarsaparilla sours, &c., which is false. These men have not, to our knowledge ever purchased any Sarsaparilla of us and know nothing of its merits, very few of them being able to raise sufficient amount of money to purchase a dozen. The majority of them have applied to us for agencies, which we refused. At least one of these men has been in the

STATE PRISON,

for forging a draft or note on the Chemical Bank; we know nothing of the character of the others—but if they sell any Sarsaparilla for the original and genuine Dr. Townsend's Sarsaparilla which is not signed by S. P. Townsend, they would commit any fraud.

Swindlers.

Druggists or others that sell Sarsaparilla for the genuine and original Dr. Townsend's Sarsaparilla, that is not signed by S. P. Townsend, commits a fraud, and swindles their customers. Men that would be guilty of such an act, would commit any other fraud—and no Druggist of common intelligence but knows that ours is the only genuine.

WHOLESALE DRUGGISTS.

Below will be found the names of three of the first wholesale druggists in the city. These three have purchased $50,000 worth of Dr. S. P. Townsend within the last four years. We have sold it by the hundred dozen to many others—we keep it through all seasons in South America, New Orleans, Havana, &c; and these charges that our Sarsaparilla sours or ferments is as false as their other lies.

Read the following:

New York, May 21, 1849.

This is to certify that our house has within the last five years purchased over twenty-five thousand dollars worth of Dr. S. P. Townsend's Sarsaparilla. It is an article that commands an unprecedented sale, and as far as we know, gives universal satisfaction. It does not ferment and break the bottles as has been alleged.

NORTON & HABCOCK,
No. 130 Maiden Lane and 49 Fletcher street.

New York, May 21, 1849.

To whom it may concern: This is to certify that I have purchased of Dr. S. P. Townsend about ten thousand dollars worth of his Sarsaparilla. It is by far the most popular medicine I ever knew and gives universal satisfaction. I have no difficulty with its fermenting or souring.

THOMAS W. CUMMING,
Wholesale Druggist, 178 Greenwich street.

New York, May 21, 1849.

This is to certify that we have purchased over six thousand dollars worth of Dr. S. P. Townsend's Sarsaparilla within the last five years. The medicine is very popular and has become an article of commerce. We find no trouble with its souring or fermenting.

BOYD & PAUL, No. 4 Liberty street.

Dr. S. P. Townsend, wishes the Public to understand that he is no connection of old Jacob Townsend whatever, and never saw him but once that he is aware of and that was on an occasion of his calling at his house to sell some poor, dirty and cheap publications.

CONSUMPTION CURED!
Cleanse and Strengthen.
CONSUMPTION CAN BE CURED.

Bronchitis, Consumption, Liver Complaints, Colds, Coughs, Catarrh, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Painful Expectoration, Pain in the Side, &c. &c. have been and can be cured.

In the last stages of Consumption.

The following Certificates are selected from a large number received. The first was kindly forwarded to us by Dr. Cole all, a respectable physician of extensive practice at Oswego, New York. He writes that the Sarsaparilla has performed many cures, and the latter it is known, the more it is appreciated. His letter can be seen at the office, if any wish to see it.

EAST OSWEGO, Dec. 6, 1847.

DR. COLWELL:

Dear Sir—This is to certify that I have been sick a number of years with the Consumption, and that the past summer I was so low that my friends thought I could not live but a very short time, and by your advice, thinking there was yet a hope left, I commenced taking Dr. S. P. Townsend's Sarsaparilla, which soon gave me relief. I grew better fast while taking the Sarsaparilla, and am now able to be about the home and do some work. I owe my recovery, thus far, to the above medicine, and believed that it saved me from the grave. If you choose, you may forward this statement to Dr. S. P. Townsend.

MRS MARGARET ARMSTRONG.

We, the undersigned, are acquainted with Mrs. Armstrong, and know the above to be true.

SARAH JANE HENDERSON,—ELIZABETH HADLEY,—ELIZABETH BARTHOLOMEW,—MARY COOK.

Curious Case of Consumption.

There is scarcely a day passes but that there are a number of cases of Consumption reported as cured by the use of Dr. S. P. Townsend's Sarsaparilla. The following was recently received:

DR. S. P. TOWNSEND—Dear Sir: For the last three years I have been afflicted with General Debility and Nervous Consumption of the last stage, and did not expect to regain my health at all. After going through a course of medicine under the care of some of the most distinguished regular physicians and members of the Board of Health in New York and elsewhere, and spending the most of my earnings in attempting to regain my health, and after reading in some paper of your Sarsaparilla, I resolved to try it. After using six bottles, I found it done me great good, and I called to see you at your office. With your advice I kept on, and do most heartily thank you for your advice. I persevered in taking the Sarsaparilla and have been able to attend to my usual labors for the last four months—and I hope, by the blessing of God and your Sarsaparilla, to continue my health. It helped me beyond the expectations of all that knew my case.

WONDERFUL CURE.

Her blood was like water, could not speak, bled at the Lungs, severe pain in the Chest and about the Heart, raising in the Throat. Read the advertisement, and doubt if you can that Consumption is Incurable!

NEW YORK, Dec 11, 1849.

DR. S. P. TOWNSEND—Sir: Last New Year's day I received as a present two bottles of your Sarsaparilla; for four years previous to this I was very ill, and had not strength to be about the house. I applied to Physicians and could obtain no relief, and at the time I commenced taking your Sarsaparilla, I had almost despaired of getting any better. The blood in my veins was like water. I bled very much at the lungs, I had severe pains in my chest and heart, and was troubled at times with something rising in my throat, so that it was impossible to speak. I discovered a change for the better in my health on taking one bottle of your Sarsaparilla, and in two weeks was able to be up about half an hour at a time, and persevered in taking your Sarsaparilla. In four weeks I was able to go about the house, and have been ever since remarkably strong. My husband attributes my recovery of my health entirely to your Sarsaparilla. If this statement will be the means of directing others similarly afflicted to your valuable Sarsaparilla, you are welcome to make it known.

Yours respectfully,
EMMA SUMNER, 70 Vandam street.

Dr. S. P. Townsend's Principal Office has been removed from 126 Fulton, to 80 Nassau street, in the building formerly occupied by the South Baptist Church.
